About Asian American Medical Group

Asian American Medical Group (“AAMG”) is based in Singapore and has been listed on the Australian Securities Exchange since September 2009. The Group’s operations include the Asian American Liver Centre Pte Ltd (“AALC”), established in 1994 in Singapore, and Asian American Radiation & Oncology Pte Ltd (“AARO”).

The Group entered into a strategic collaboration in October 2012 with the US-based US\$16-billion integrated global health enterprise University of Pittsburgh Medical Center (“UPMC”). UPMC, ranked No. 14 on the U.S. News & World Report Honor Roll of American’s Best Hospitals, is affiliated with the University of Pittsburgh Schools of the Health Sciences and are pioneers in the field of transplantation. This collaboration has enhanced AAMG’s clinical capabilities through shared protocols, rigorous quality standards and technology and also created a platform for AAMG to expand into other countries in Asia such as Malaysia and Myanmar.

For personal use only

AALC, one of Asia's foremost liver centres, is led by renowned hepatobiliary expert and liver transplant surgeon, Dato' Dr. Tan Kai Chah (Dr. K.C. Tan), who helped start the Liver Transplant Programme at the King's College Hospital London, United Kingdom, and pioneered the highly successful Living Donor Liver Transplantation (LDLT) Programme in Singapore. In 2004, AALC began conducting surgical procedures at the IHEAL Medical Centre located in Kuala Lumpur, Malaysia.

AARO, established in March 2015, offers radiation and oncology clinical, consultancy and management services and is led by Dr. Daniel Tan Yat Harn. Based in Singapore, AARO will drive expansion into the growing radiotherapy and oncology segment in the overseas market, at a time where there is a shortage of modern radiotherapy treatment centres.
