The principal activity of Asian American Medical Group Limited and its controlled entities ("AAMG" or "the Group") is that of provision of specialised medical services for liver diseases and transplantation, radiation oncology and healthcare project management and consultancy services.

# Interim Financial Report

#### **Review of Financial Performance**

For the first six months of FY2018, the Group recorded profit after tax ("Net Profit") of S\$0.7 million, reversing a loss of S\$2.2 million over the comparative periods. This was on the back of 55.6% or S\$3.8 million increase in group revenue to S\$10.8 million in 1H2018 (1H2017: S\$7.0 million). Whilst the operating environment in Singapore continues to be challenging, AAMG recorded improvements across all its business segments, particularly in the Radiation and Oncology and Management and Consultancy services.

A review of our operations is as follows:

# i. Liver segment

Group revenue from the Liver segment, Asian American Liver Centre ("AALC"), increased by 17.7% to \$\$7.3 million from \$\$6.2 million in 1H2017. This is due mainly to a 14.2% increase in the total patient transactions to 3,576 as compared to 3,132 in 1H2017. As a result, the liver segment managed to narrow its loss from \$\$0.4 million to \$\$28,000 in 1H2018.

The number of liver dialysis, Fibroscan and ICG patient transactions increased by 89.5%, 37.2% and 46.7%, respectively. This was partially offset by the fall in the number of surgical procedures and living donor liver transplants ("LDLT") of 36.8% and 25.0%, respectively. AALC performed one less LDLT in 1H2018 as compared to the four performed the previous year. Also, the overall increase in patient transactions had a favourable impact on the group's topline, reflecting increasing revenue from professional fees, laboratory and imaging services.

The Liver segment remained the Group's largest revenue contributor although its share has declined due to the growing contribution from the other segments, accounting for 67.6% of the Group's top line in 1H2018, compared to 89.5% in 1H2017.

# ii. Radiation Oncology segment

The Radiation Oncology segment operating under Asian American Radiation & Oncology ("AARO") continued its growth momentum and recorded a 57.1% increase in revenue in 1H2018, to S\$1.1 million from S\$0.7 million in 1H2017, and contributed about 10% of the Group's total revenue in 1H2018.

The increase in revenue was due mainly to the increase in patients seeking treatment, driving up the number of patient transactions by 40.1% to 241 from 172 in 1H2017. AARO also recorded an improvement in its management and service income from both local and overseas projects which increased by 28.3% in 1H2018. These contributed to the three-fold increase in Net Profit of AARO during the period under review to S\$52,000.

# iii. Management and Consultancy segment

Revenue from the management and consultancy segment under Asian American Medical Group Pte. Ltd. ("AAMGPL") increased significantly to S\$2.3 million in 1H2018 from S\$20,000 in 1H2017. This was derived mainly from professional services rendered to Hipprocrates Development Sdn. Bhd. ("HDSB") relating to development of the Tunku Laksamana Johor Cancer Centre during the period under review.

Net Profit from the Management and Consultancy segment stood at S\$0.9 million in 1H2018 compared to a loss of S\$0.8 million in the corresponding period.

Direct costs for the Group increased by 42.2% in line with the increase in revenue of 55.6%, from S\$4.5 million in 1H2017 to S\$6.4 million in 1H2018. The marginally lower increase in direct costs as compared to revenue is due to higher volume of sales mix from clinical procedures with higher profit margin. This has resulted in a higher gross profit margin of 41.0% as compared to 35.0% in 1H2017.

# Interim Financial Report

Other operating expenses (excluding financial and other income) decreased by S\$0.7 million to S\$3.8 million from S\$4.5 million in 1H2017. This was due mainly to the following:

- One-off write-off of goodwill relating to AALC of S\$0.3 million in 1H2017;
- One-off write-back of provision for doubtful debts of S\$0.2 million in 1H2017;
- Unrealised foreign exchange gain of S\$0.1 million, a reversal of an exchange loss of S\$0.3 million in 1H2017 due to the strengthening of SGD against AUD;
- Reduction of S\$0.2 million for employee benefits expenses due to cost-cutting initiatives.

As a result of the above, the Group recorded a Net Profit of S\$0.7 million for 1H2018 as compared to a Loss After Tax ("Net Loss") S\$2.2 million in 1H2017.

# Review of Financial Position (as at 28 February 2018 vs 31 August 2017)

Trade and other receivables increased by 59.0%, or \$\$3.6 million, to \$\$9.7 million from \$\$6.1 million as at 31 August 2017, in line with the increase in revenue of 55.6%. The marginal difference in the corresponding increase as compared to the revenue is due to a longer collection period from non-trade receivables.

Correspondingly, trade and other payables increased by S\$2.7 million or 45.6% to S\$8.6 million from S\$5.9 million as at 31 August 2017, in line with the increase in purchases as a result of higher sales.

The Group's net assets increased by S\$0.4 million to S\$10.0 million from S\$S\$9.6 million as at 31 August 2017. This was mainly attributable to the Net Profit of S\$0.7 million for the review period and an increase of S\$0.1 million in Non-controlling interest, offset by a decrease of S\$0.4 million in foreign currency exchange reserves due to the negative effect of the strengthening of the SGD against AUD on the Group's foreign currency denominated net assets.

Given the above, Net Asset Value ("NAV") per share rose by S 0.2 cent from S 3.2 cents as at 31 August 2017 to S 3.4 cents as at 28 February 2018.

Asian American Medical Group Limited ("AAMG") is a company domiciled in Australia. The consolidated financial report of the Company as at and for half-year ended 28 February 2018 comprises the Company and its subsidiaries (together referred to as the "Group"). The principal activity of AAMG is that of provision of specialised medical services for liver diseases and transplantation, radiation oncology and healthcare project management and consultancy services. There has been no change in the principal activity of the Group during the financial year.

AAMG is a for-profit entity for the purpose of preparing financial statements.

The consolidated interim financial report is presented in Singapore Dollars (S\$) as a significant portion of the group's activity is denominated in Singapore Dollars. The rate of exchange used at 28 February 2018 was 0.9676 S\$ to 1A\$ (2017: 1.0792 S\$ to 1A\$).

# 2 Basis of preparation

These general purpose financial statements for the interim half-year reporting period ended 28 February 2018 have been prepared in accordance with requirements of the Corporations Act 2001 and Australian Accounting Standards including AASB 134: Interim Financial Reporting.

This interim financial report is intended to provide users with an update on the latest annual financial statements of Asian American Medical Group Limited and its controlled entities (the Group). As such, it does not contain information that represents relatively insignificant changes occurring during the half-year within the Group. It is therefore recommended that this financial report be read in conjunction with the annual financial statements of the Group for the year ended 31 August 2017, together with any public announcements made during the half-year.

The accounting policies have been applied consistently throughout the Group for the purposes of preparation of these interim financial statements.

# **Estimates**

When preparing the interim financial statements, management undertakes a number of judgements, estimates and assumptions about recognition and measurement of assets, liabilities, income and expenses. The actual results may differ from the judgements, estimates and assumptions made by management, and will seldom equal the estimated results.

The judgements, estimates and assumptions applied in the interim financial statements, including the key sources of estimation uncertainty were the same as those applied in the Group's last annual financial statements for the year ended 31 August 2017. The only exception is the estimate of the provision for income taxes which is determined in the interim financial statements using the estimated average annual effective income tax rate applied to the pre-tax income of the interim period.

These financial statements were authorised for issue by the Board of Directors on 13 April 2018.

#### a. Provision for doubtful debts

Included in the FY2016 trade receivable is an amount of S\$224,087 due from Rich Tree Land Pte Ltd ("RTL") which were billings by Asian American Medical Group Pte Ltd ("AAMG PL") for work performed as the appointed Project Lead Manager ("PLM") for the Zhuhai Project. Following the termination of the PLM Agreement, RTL disputed our billings and as a result, we initiated legal proceedings to recover this debt. During 1H2017, a settlement was reached between AAMG PL and RTL in which S\$150,078 was recovered.

Apart from the above, current trade and term receivables are generally on 60 - 120 days terms. A provision for doubtful debt is recognised when there is objective evidence that an individual trade or term receivable is impaired. Apart from the abovementioned debt, no trade or other receivables are considered past due or impaired. The Group reviews its trade receivables for evidence of impairment on a regular basis. The trade receivable consists mainly amounts owing by the United Arab Emirates ("UAE") government agencies. Management holds regular meetings with the agencies relating to patient care feedback and collection of amounts outstanding. Management is of the opinion that the trade receivables are recoverable and hence, no further provision is required.

The Group reviews the necessity and adequacy of the allowance for impairment at each reporting date and makes adjustments where necessary. Goodwill is tested for impairment annually and at each reporting date where there is objective evidence that goodwill may be impaired.

In performing the impairment assessment of the carrying amount of goodwill in 1H2017, the recoverable amount of CGUs in which goodwill has been attributed to, was determined using value in use calculations using cash flow projections from financial budgets approved by the management covering a period not exceeding five years.

# **Interim Financial Report**

In 1H2017, the Group recognised an impairment charge on its goodwill of S\$266,123 in view of the uncertainty of the profitability of the AALC in the coming years. This resulted in the writing down of the carrying amount of goodwill to S\$ nil.

# Independent Auditor's Review Report To the Members of Asian American Medical Group Limited

# Report on the Half Year Financial Report

#### Conclusion

We have reviewed the accompanying half year financial report of Asian American Medical Group Limited (the Company) and its subsidiaries (the Group), which comprises the consolidated statement of financial position as at 28 February 2018, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the half year ended on that date, a description of accounting policies, other selected explanatory notes, and the directors' declaration.

Based on our review, which is not an audit, nothing has come to our attention that causes us to believe that the half year financial report of Asian American Medical Group Limited does not give a true and fair view of the financial position of the Group as at 28 February 2018, and of its financial performance and its cash flows for the half year ended on that date, in accordance with the *Corporations Act 2001*, including complying with Accounting Standard AASB 134 *Interim Financial reporting*.

#### Auditor's Responsibility

Our responsibility is to express a conclusion on the half year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 Review of a Financial Report Performed by the Independent Auditor of the Entity, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half year financial report is not in accordance with the Corporations Act 2001 including giving a true and fair view of the Group's financial position as at 28 February 2018 and its performance for the half year ended on that date, and complying with Accounting Standard AASB 134 Interim Financial Reporting and the Corporations Regulations 2001. As the auditor of Asian American Medical Group Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
