**Singapore-Based Radiation & Oncology Specialist AARO, Eyeing Expansion  
Across Asia, Appoints Dr Jonathan Teh as Consultant**

**Singapore, 17 July 2017** – Singapore-based Asian American Radiation & Oncology Pte Ltd (“AARO”), one of Asia’s leading radiation oncology centres, announced today the appointment of Dr. Jonathan Teh Yi Hui as Consultant.

Dr. Teh, who has received multiple awards and has more than ten years of experience with the National Cancer Centre Singapore (NCCS), joins Dr. Daniel Tan Yat Harn, who in 2015 spearheaded the formation of AARO, a division of Australian Securities Exchange-listed Asian American Medical Group (“AAMG” or the “Group”).

AARO has grown rapidly since inception and plans to expand in Asia. Apart from its flagship AARO clinic in Gleneagles Hospital, it intends to open three new clinics in Singapore by end-August 2017. Located at Mount Elizabeth Novena Specialist Centre, Mount Alvernia Hospital and Farrer Park Hospital, the clinics will offer specialised radiation therapy treatment and clinical expertise.

AARO currently also offers management and advisory services to radiation oncology units in Myanmar, and Russia. AARO doctors fly regularly to these overseas centres to support operations under its hub and spoke model, which also deploys telemedicine to facilitate face-to-face video consultations with patients.

Dr. Teh obtained his medical degree from the National University of Singapore and received further specialist radiation and clinical oncology postgraduate certification from the Academy of Medicine, Singapore and the Royal College of Radiologists, United Kingdom. He previously served as a radiation oncology consultant in NCCS for six years, as well as adjunct assistant professor at the Duke-NUS Medical School. He has also spoken and presented at numerous local and international radiotherapy and oncology meetings.

AAMG is a strategic partner of the University of Pittsburgh Medical Centre, a US\$14 billion integrated global health enterprise based in the United States.

Dato’ Dr. Tan Kai Chah, Executive Chairman of AAMG and a renowned liver surgeon, said: “AARO has been growing rapidly since inception. There is a strong demand for these services in many parts of Asia and even Russia. We are pleased that Dr. Teh is able to join us on this exciting journey of growth.”

AARO’s Dr. Daniel Tan said, “I am elated to have an experienced Consultant of Dr. Teh’s stature join AARO. The team, our overseas partners and our patients will all benefit from his expertise in this exciting field of medicine.”

## **ABOUT ASIAN AMERICAN MEDICAL GROUP**

**Asian American Medical Group ("AAMG")** is based in Singapore and has been listed on the Australian Securities Exchange since September 2009. The Group's operations include the Asian American Liver Centre Pte Ltd ("AALC"), established in 1994 in Singapore, and Asian American Radiation & Oncology Pte Ltd ("AARO").

The Group entered into a strategic collaboration in October 2012 with the US-based US\$14-billion integrated global health enterprise University of Pittsburgh Medical Center. UPMC, ranked No. 12 on the U.S. News & World Report Honor Roll of American's Best Hospitals, is affiliated with the University of Pittsburgh Schools of the Health Sciences and are pioneers in the field of transplantation. This collaboration has enhanced AAMG's clinical capabilities through shared protocols, rigorous quality standards and technology and also created a platform for AAMG to expand into other countries in Asia such as Malaysia and Myanmar.

AALC, one of Asia's foremost liver centres, is led by renowned hepatobiliary expert and liver transplant surgeon, Dato' Dr. Tan Kai Chah (Dr. KC Tan), who helped start the Liver Transplant Programme at the King's College Hospital London, United Kingdom, and pioneered the highly successful Living Donor Liver Transplantation (LDLT) Programme in Singapore. In 2004, AALC began conducting surgical procedures at the IHEAL Medical Centre located in Kuala Lumpur, Malaysia.

AARO, established in March 2015, offers radiation oncology clinical, consultancy and management services and is led by Dr Daniel Tan Yat Harn. Based in Singapore, AARO will drive expansion into the growing radiotherapy and oncology segment in the overseas market, at a time where there is a shortage of modern radiotherapy treatment centres.
